TO OU 3 ADMINISTRATIVE RECORD

RE Additions to Administrative Record

On April 14, 1997, I spoke with Tim Rehder of USEPA Region VIII while hand-delivering the final CAD/ROD for OU 3 for signature. I asked him about potential additions to the OU 3 administrative record following signature of the CAD/ROD. Tim told me that, while new material following the signature date of the CAD/ROD could not be added to the record, material could be added that predated the CAD/ROD signature, for the purpose of making the record complete.
